Error with line numbering in Reviewer 1 comments?

Tancrède Leger

Community comment on "A cosmogenic nuclide-derived chronology of pre-Last Glacial Cycle glaciations during MIS 8 and MIS 6 in northern Patagonia" by Tancrède P. M. Leger et al., Clim. Past Discuss., <https://doi.org/10.5194/cp-2022-32-CC1>, 2022

Dear reviewer,

Thank you very much for taking the time to review the manuscript, and for your insightful comments.

It seems there was an error in the formatting of your comment text: such that the symbol describing the line number almost always appears as "1.".

In this format I am struggling to precisely relate some of the comments to a particular line of text in the manuscript, which will likely hinder my capacity to make the appropriate corrections with regards to some of the comments.

Would it be possible to re-submit these comments with a new format for the line-numbering attributions?

Thank you very much,

Best wishes,

Tancrède P.M. Leger
