Referee comment on "Review article: large fluctuations in non-equilibrium physics" by Giovanni Jona-Lasinio, EGU sphere, <https://doi.org/10.5194/egusphere-2022-1192-RC1>, 2022

This is a very clear and nice review of works done over the last 20 years. I think it should be published as it is.

I found only very few misprints :

line 69 applicaton -> application

line 200  $J(\rho(t))$  ->  $J(\rho(t))$

line 232 e phenomenon -> a phenomenon

line 293-294 there is an unnecessary break
