Author comment "Comparing detrital age spectra, and other geological distributions, using the Wasserstein distance" by Alex Lipp and Pieter Vermeesch, EGUsphere, https://doi.org/10.5194/egusphere-2022-1200-AC1, 2022

We thank the reviewer for their helpful feedback. We wonder whether the reviewer would be able to provide access to the (anonymised) data they used in their natural examples. This data would help us best respond to the comments they raise and to improve both the method and manuscript.
