Author comment on "Effects of innovative long-term soil and crop management on topsoil properties of a Mediterranean soil based on detailed water retention curves" by Alaitz Aldaz-Lusarreta et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-131-AC11>, 2022

Dear Dr. Chu,

Thank you very much for your interest in our work and for your helpful and sound comments.

Precisely, many of your concerns have been raised by other reviewers, and have been answered into their individual responses (please, see response to reviewer #2, #3 and #5).

In the attached document we indicate to which reviewer your question has been answered.

Best regards,

Alaitz Aldaz- Lusarreta and co-authors.

Please also note the supplement to this comment:
