Editor comment on "Effects of innovative long-term soil and crop management on topsoil properties of a Mediterranean soil based on detailed water retention curves" by Alaitz Aldaz-Lusarreta et al., EGUsphere, https://doi.org/10.5194/egusphere-2022-131-EC2, 2022

Both the general and specific comments by the reviewer are pertinent and require a detailed response from/by the authors
