Author comment on "Building-scale flood loss estimation through enhanced vulnerability pattern characterization: application to an urban flood in Milano, Italy" by Andrea Taramelli et al., EGUsphere, https://doi.org/10.5194/egusphere-2022-225-AC3, 2022

We thank the reviewer for his careful reading of the manuscript and his positive feedback. In the review phase we improved the paper making some general changes and edits:

- Modify the abstract to reflect clearer the scope of the paper;
- Added a clearer 'Background' and 'Aims' sections;
- Provided more detail on the Methodology throughout the manuscript;
- Ensuring a consistent results interpretation in the Discussion;
- Enhanced the figures.
