Author comment on "Auroral alert version 1.0: Two-step automatic detection of sudden auroral intensification from all-sky jpeg images" by Masatoshi Yamauchi and Urban Brändstöm, EGUsphere, https://doi.org/10.5194/egusphere-2022-331-AC5, 2022

Thank you again your encouraging comments. It is also encouraging to know that the topic is relevant to much wider community than auroral community.
