Author comment on "The 8.2 ka event in northern Spain: timing, structure and climatic impact from a multi-proxy speleothem record" by Hege Kilhavn et al., EGU sphere,  
<https://doi.org/10.5194/egusphere-2022-386-AC1>, 2022

---

We thank reviewer 1 for these very positive and constructive comments and suggestions. We respond to the comments and questions, point by point, in the attached pdf document (in order to improve the readability we color coded our replies in blue, whilst the reviewers comments are in black).

Please also note the supplement to this comment:
