Author comment on "Detecting micro fractures: a comprehensive comparison of conventional and machine-learning-based segmentation methods" by Dongwon Lee et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-400-AC1>, 2022

---

Dear Reviewer,

We would like to thank you very much for your insightful comments. We believe that after the review process our article has significantly improved.

We trust that we have adequately addressed your comments/remarks/concerns in the revised article. We believe that after having performed the necessary improvements, the article can be considered for publication with the journal.

Once again, thank you very much for your assistance in total.

Sincerely yours,

Dongwon Lee, Nikolaos Karadimitriou, Matthias Ruf & Holger Steeb.
