Comment on egusphere-2022-482

Anonymous Referee #1

Referee comment on "Sensitivity of the pseudo-global warming method under flood conditions: A case study from the Northeastern U.S." by Zeyu Xue et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-482-RC1>, 2022

I am rejecting this manuscript due to the substantial work needed for revision, but I encourage resubmission due to the interesting topic of this paper. Please see the attached comments for more details.

Please also note the supplement to this comment:
