Referee comment on "The evolution and dynamics of the Hunga Tonga–Hunga Ha'apai sulfate aerosol plume in the stratosphere" by Bernard Legras et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-517-RC2>, 2022

Dear authors,

I apologize for not realizing that this is manuscript was submitted for a letter. Please disregard the comment "This article is formatted as if there was a limited number of words / pages (perhaps it was submitted to another journal and not change for submission to ACP). The manuscript needs to include all the sections in the appendix in the main body of the manuscript to improve readability."
