Author comment on "Brief Communication: Inclusiveness in designing an early warning system for flood resilience" by Tahmina Yasmin et al., EGU sphere,
<https://doi.org/10.5194/egusphere-2022-528-AC1>, 2022

Dear reviewer,

Thank you for your comments and suggestions. We have carefully looked at all the comments and provided our responses with indicating necessary revision and corrections in the revised manuscript. Please see the supplement documents as our responses to individual comments. We have added the lines in red into the paragraph to make it clearer and specific in response to your comments.

We really appreciate your time and effort to review our paper and providing very structured comments.

Regards,

Tahmina Yasmin and David M. Hannah (On behalf of all co-authors).

Please also note the supplement to this comment:
