Author comment on "Developing a Bayesian network model for understanding river catchment resilience under future change scenarios" by Kerr J. Adams et al., EGU Sphere, <https://doi.org/10.5194/egusphere-2022-617-AC1>, 2022

Dear Dr Laura Uusitalo,

Many thanks for taking the time to review our pre-print and provide constructive feedback.

We have made our best efforts to respond to your questions and aspects you would like addressed in the paper in the attached response file. We will updated a revised manuscript and supplementary material, where we have made changes and edits.

With best wishes,

Kerr Adams, on behalf of authors

Please also note the supplement to this comment:
