Tania Habel et al.

Author comment on "A contribution to the quantification of crustal shortening and kinematics of deformation across the Western Andes (\square 20–22° \square S)" by Tania Habel et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-629-AC1>, 2022

Please, find our answers to the various comments by Benjamin Gerard in the attached document.

The suggested revisions do not question our results and conclusions, but will clearly help improve our manuscript by clarifying our arguments and their presentation. We thank Benjamin Gerard for his positive appreciation of our work, as well as for his various comments and suggestions.

Please also note the supplement to this comment:
