Comment on egusphere-2022-65

Emilia Chiapponi

Community comment on "Effects of brackish water inflow on methane-cycling microbial communities in a freshwater rewetted coastal fen" by Cordula Nina Gutekunst et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-65-CC1>, 2022

Thanks for the super interesting presentation, I've really enjoyed it! I wanted to ask you at what depth the core was taken (eg 0-50 cm), and if you mixed the whole core for dna extraction or if you selected just some fraction of it. Thanks again!
