Editor comment on "Estimation of CH4 emission based on advanced 4D-LETKF assimilation system" by Jagat S. H. Bisht et al., EGUsphere, https://doi.org/10.5194/egusphere-2022-719-EC1, 2022

Dear Authors,

Is "https://zenodo.org/record/7079167" the LETKF_DA_GUIDE? Please specify what kind of software you used to compile the LETKF codes and MIROC model. It is not clear enough to provide the Makefile only.

Thanks,
