Author comment on "Unifying biological field observations to detect and compare ocean acidification impacts across marine species and ecosystems: what to monitor and why" by Steve Widdicombe et al., EGU sphere, <https://doi.org/10.5194/egusphere-2022-907-AC1>, 2022

We would like to thank the reviewer for the positive comments and the thorough reading of the manuscript. We apologize for the typos that are now corrected in the next version of the manuscript. We have also added the suggested references and modify the Figure 1 to follow the same order as in the text. Some additional references have been added as requested. The next version of the manuscript takes into account all of the suggested changes.
