Comment on egusphere-2022-969

Manuel Vargas-Yáñez (Referee)

Referee comment on "Multiple mechanisms for chlorophyll *a* concentration variations in coastal upwelling regions: a case study east of Hainan Island in the South China Sea" by Junyi Li et al., EGUsphere, https://doi.org/10.5194/egusphere-2022-969-RC2, 2022

I think that this work is interesting and it is well written and structured. Nevertheless I find some questions that should be clarified before publication. General and detailed comments are in the pdf attached.
