Editor comment on "ESD Ideas: A Global Warming Scaling Law" by Mikhail Verbitsky and Michael Mann, Earth Syst. Dynam. Discuss., <https://doi.org/10.5194/esd-2021-87-EC1>, 2021

Dear Richard,

I very much welcome community interactions and comments on preprints in ESD. However, I would ask you to limit the discussion to the scientific contents of the article and refrain from commenting on the editorial evaluation and processing of the paper.

Best Regards,

Gabriele Messori
