Anonymous Referee #1

Referee comment on "Multi-year, spatially extensive, watershed scale synoptic stream chemistry and water quality conditions for six permafrost-underlain Arctic watersheds" by Arial J. Shogren et al., Earth Syst. Sci. Data Discuss., https://doi.org/10.5194/essd-2021-155-RC2, 2021

Thanks to the authors for their thoughtful responses to my original comments and their revision of the manuscript to address my concerns.
