Comment on essd-2021-192

Martin Schultz (Editor)

Editor comment on " Global balanced wind derived from SABER temperature and pressure observations and its validations" by Xiao Liu et al., Earth Syst. Sci. Data Discuss., <https://doi.org/10.5194/essd-2021-192-EC1>, 2021

Dear Xiao Liu et al.,

as the two reviews came to different evaluations with respect to the quality of this manuscript, I had asked a third person to provide another opinion. That person unfortunately could not write an actual referee comment, but indicated that he/she is more inclined to follow the more critical review. I therefore ask you to apply major revisions to your manuscript.

With kind regards,

Martin Schultz (handling editor)
