Author comment on "Aircraft measurements of water vapor heavy isotope ratios in the marine boundary layer and lower troposphere during ORACLES" by Dean Henze et al., Earth Syst. Sci. Data Discuss., <https://doi.org/10.5194/essd-2021-238-AC3>, 2021

Dear Referee #1,

Quick update: We decided hold off on a detailed response to each of your comments until the next stage of the review process, but found all your comments very constructive. We plan on implementing all your suggestions at least to some degree (and most of them fully) in the new revision.

- Dean
