Author comment on "A dataset of daily near-surface air temperature in China from 1979 to 2018" by Shu Fang et al., Earth Syst. Sci. Data Discuss.,
<https://doi.org/10.5194/essd-2021-309-AC1>, 2021

Thank you for your good comments. The purpose of our work is to solve basic data for climate change research with the support of China's national key research and development plan. It took our team more than 3 years to complete this work. Since its release on the public platform, it has been highly praised by many experts and scholars, and the number of downloads has exceeded 30,000 times.
