Author comment on "Dataset of daily near-surface air temperature in China from 1979 to 2018" by Shu Fang et al., Earth Syst. Sci. Data Discuss., https://doi.org/10.5194/essd-2021-309-AC7, 2022

Dear professor,
We have consulted the editor by email and the editor told us. When all the review comments are given and the discussion phase is closed, the revised manuscript will be submitted to the editor. It might be that the editor will anyway ask the referees for a further review. Thank you.
Sincerely,
Shu Fang et al.
