Yves Quilfen et al.

Author comment on "Towards improved analysis of short mesoscale sea level signals from satellite altimetry" by Yves Quilfen et al., Earth Syst. Sci. Data Discuss., https://doi.org/10.5194/essd-2021-352-AC3, 2021

Thank you for reading and commenting our manuscript. We agree that we can do better to clarify the methodology section and focus on the main results. We will include an Appendix in the revised manuscript.
