Minor comment on essd-2021-401
Nicolas Heijmans

Community comment on "Historical and future weather data for dynamic building simulations in Belgium using the regional climate model MAR: typical and extreme meteorological year and heatwaves" by Sébastien Doutreloup et al., Earth Syst. Sci. Data Discuss., https://doi.org/10.5194/essd-2021-401-CC3, 2022

A last very small point. The following reference could be improved:

If you want to refer to an "European" standard (ISO is not European but International), you should refer to:
