Author comment on "GeoDAR: Georeferenced global dam and reservoir dataset for bridging attributes and geolocations" by Jida Wang et al., Earth Syst. Sci. Data Discuss., <https://doi.org/10.5194/essd-2021-58-AC1>, 2021

We are very grateful for this reviewer's positive comments on the value of our dataset and very constructive suggestions to improve the readability and clarity of our manuscript. Thank you. We will start to incorporate these comments in the coming weeks, and will later submit a detailed revision response (together with the responses to the second reviewer as well).
