Community comment on "A Harmonized Global Land Evaporation Dataset from Model-based Products Covering 1980–2017" by Jiao Lu et al., Earth Syst. Sci. Data Discuss., <https://doi.org/10.5194/essd-2021-61-CC1>, 2021

A well written manuscript entitled "A Harmonized Global Land Evaporation Dataset from Reanalysis Products Covering 1980-2017".

Kudos to the authors for undertaking this important work and developing a very crucial reanalysis product for Land Evaporation dataset, which will have multiple applications. I will be utilising this product for examining changes in forest fire conditions across Australia.
