Author comment on "CCAM: China Catchment Attributes and Meteorology dataset" by
Zhen Hao et al., Earth Syst. Sci. Data Discuss.,
<https://doi.org/10.5194/essd-2021-71-AC4>, 2021

1. Zenodo data has been updated;
2. As suggested by RC1, we have added the length of continuous (>95% complete) streamflow record (year) to the "attributes.json" for each YR basin in the dataset; ~40 basins are having over ten years record, and the mean length of the continuous record is ~7 years.
