Author comment on "TreeSatAI Benchmark Archive: A multi-sensor, multi-label dataset for tree species classification in remote sensing" by Steve Ahlswede et al., Earth Syst. Sci. Data Discuss., https://doi.org/10.5194/essd-2022-312-AC1, 2022

Dear referee,

thank you for your helpful comments. In an updated version of the manuscript, we will revise figure 4 to a more reader friendly version and add more detailed descriptions of the dataset and its reference data.

Best regards on behalf of the consortium,

Christian Schulz
