Referee comment on "Evaluating the transport of surface seawater from 1956 to 2021 using <sup>137</sup>Cs deposited in the global ocean as a chemical tracer" by Yayoi Inomata and Michio Aoyama, Earth Syst. Sci. Data Discuss., <https://doi.org/10.5194/essd-2022-374-RC2>, 2023

---

Dear Author,

I think adding data to support existing ones can only make the work more robust, so I agree.

Best regards

Fabio Conte
