Comment on esurf-2021-60

Anonymous Referee #1

Referee comment on "Linear stability analysis of plane beds under flows with suspended load" by Koji Ohata et al., Earth Surf. Dynam. Discuss.,
<https://doi.org/10.5194/esurf-2021-60-RC1>, 2021

Dear all,

please find attached my comments on the manuscript *Linear stability analysis of plane beds under flows with suspended load* by Ohata et al.

Note that I have ticked 'reconsidered after major revisions', as my concerns on the sediment transport model could lead to substantial modifications, and therefore need time.

Please also note the supplement to this comment:
