Comment on esurf-2021-69

Haruka Tsunetaka et al.

Author comment on "Effect of debris-flow sediment grain-size distribution on fan morphology" by Haruka Tsunetaka et al., Earth Surf. Dynam. Discuss.,
<https://doi.org/10.5194/esurf-2021-69-AC1>, 2022

We are grateful for the constructive and detailed comments of both reviewers. In accordance with their helpful and insightful recommendations, we will substantially revise the original manuscript to clarify the results and significance of this research.

As a supplement PDF, we provide our responses to each of the reviewers' comments. The comments of the reviewers are shown in italics and different colors (i.e., those of Reviewer 1 and 2 are brown and blue, respectively), while our responses are provided in black text.

Haruka Tsunetaka (on behalf of all co-authors)
