Author comment on "Theoretical and numerical considerations of rivers in a tectonically inactive foreland" by Stefan Hergarten, Earth Surf. Dynam. Discuss.,  
<https://doi.org/10.5194/esurf-2022-14-AC2>, 2022

---

Dear Reviewer,  
thanks for your constructive and encouraging comments! I am quite happy that all reviewers found the concept of carriers and redistributors useful. It should be possible to improve the explanations without making the paper too excessive and I will hopefully be able to submit a revised manuscript quite soon.

Best regards,  
Stefan
