Author comment on "Pandemic Minecrafting: an analysis of the perceptions of and lessons learned from a gamified virtual geology field camp" by Erika Rader et al., Geosci. Commun. Discuss., <https://doi.org/10.5194/gc-2021-11-AC1>, 2021

Thank you for the positive review and helpful comments! In our revised document we will clarify the statistical methods used and reference additional work that is being done on virtual environments in geology.
