## Comment on gchron-2021-41

Klaus Mezger (Editor)

---

Editor comment on "Complex  $^{40}\text{Ar}/^{39}\text{Ar}$  age spectra from low-grade metamorphic rocks: resolving the input of detrital and metamorphic components in a case study from the Delamerian Orogen" by Anthony Reid et al., Geochronology Discuss., <https://doi.org/10.5194/gchron-2021-41-EC1>, 2022

---

Dear Dr. Reid

your manuscript has been reviewed and evaluated by 2 Reviewers. Both reviewers acknowledge that the interpretation of the data is difficult but they also point out that it is too simplistic to be robust enough for publication.

Can you respond to these review comments. Do you think you can improve the MS taking into account the substantial concerns of the Reviewers?

With kind regards

Klaus Mezger
