On p.3:

Since in our organization is a term called "aerology", which is missing in common scientific literature, we replace it with a well known name "upper-air sounding", which is the same. More information about aerological(upper-air) soundings is here:

https://library.wmo.int/index.php?lvl=notice\_display&id=7417 - from World Meteorological Organization

https://www.epa.gov/scram/air-quality-modeling-surface-and-upper-air-databases

Best regards,

Fedor
