Comment on gmd-2020-400

Astrid Kerkweg

Chief editor comment on "Automated geological map deconstruction for 3D model construction" by Mark Jessell et al., Geosci. Model Dev. Discuss.,
<https://doi.org/10.5194/gmd-2020-400-CEC1>, 2021

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2:

<https://www.geosci-model-dev.net/12/2215/2019/>

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

- "The main paper must give the model name and version number (or other unique identifier) in the title."

Please add the names and version numbers of the 2 python libraries to the title of your manuscript.

The code availability section would improve much, if you would find a few words of what is found in the zenodo archives.

Yours,

Astrid Kerkweg
