Chief editor comment on "Modeling gas exchange and biomass production in West African Sahelian and Sudanian ecological zones" by Jaber Rahimi et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2020-417-CEC1>, 2021

Dear authors,

Please, in the next step of the review process, be sure that you fix the following issues with your paper:

- The code of the LandscapeDNDC model must be stored in a permanent archive. For example, Zenodo.
- You must include the name of the model and the version that you use in the title of the manuscript.

Best regards,

Juan A. Añel
