Comment on gmd-2020-421

Astrid Kerkweg

Chief editor comment on "Development of adjoint-based ocean state estimation for the Amundsen and Bellingshausen seas and ice shelf cavities using MITgcm–ECCO (66j)" by Yoshihiro Nakayama et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2020-421-CEC1, 2021

Dear authors,

in my role as Executive editor of GMD, I would like to bring to your attention our Editorial version 1.2:

https://www.geosci-model-dev.net/12/2215/2019/

This highlights some requirements of papers published in GMD, which is also available on the GMD website in the 'Manuscript Types' section:

http://www.geoscientific-model-development.net/submission/manuscript_types.html

In particular, please note that for your paper, the following requirement has not been met in the Discussions paper:

"The main paper must give the model name and version number (or other unique identifier) in the title."

Please add a version numbers for MITgcm/ECCO in the title upon your revised submission to GMD.

Yours, Astrid Kerkweg
