Edward C. Chan and Timothy M. Butler

I have just been informed by the editorial staff that no further changes in the MS is possible during the discussion round. They have suggested posting the updated DOI as a discussion comment.

The exact version of urbanChemFoam and all components described in Model Implementation (§ 2.3 of the MS), as well as select test cases featured in this article, are licensed under the terms of the GNU General Public License version 3.0 or later, and can be obtained using the digital object identifier 10.5281/zenodo.4384731.
