Correction to RC2 comment on gmd-2020-444

Anonymous Referee #2

Referee comment on "A new exponentially decaying error correlation model for assimilating OCO-2 column-average CO₂ data using a length scale computed from airborne lidar measurements" by David F. Baker et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2020-444-RC3>, 2021

Correction to RC2 comment of May 3, 2021, there was a mistype on my comment, revised line:

L221 Although temporally uncorrelated errors are convenient for Kalman filters, it does seem to be an excessive requirement, need to add a reference to the appropriate text, if exists.
