Author comment on "FORest Canopy Atmosphere Transfer (FORCAst) 2.0: model updates and evaluation with observations at a mixed forest site" by Dandan Wei et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-104-AC1>, 2021

Dear Executive Editor Juan A. Añel,

Thank you for the comments on the code sharing.

We moved the codes to Zenodo (<https://doi.org/10.5281/zenodo.4776662>). I believe the codes is now citable with a DOI of [10.5281/zenodo.4776662](https://doi.org/10.5281/zenodo.4776662). We also added a GPLv3 license as recommended.

My understanding is that we can not make any changes to the preprint right now. We will incorporate the changes into the manuscript in the potential responses to reviewers. Please let me know if additional information is needed.

Thanks,

Dandan Wei
