Dear Authors,

I am very irritated about your Code Availability Section:

"The exact version of the model TransClim as well as the corresponding EMAC simulations for the lookup-tables used to produce the results presented in this paper are archived at the German Climate Computing Center (citation)"

It is not enough to state that DLR is somewhere hosting your code. But it looks to me, that you simply forgot to add the citation of a "DOI-ed" location. Please provide the correct citation as soon as possible.

Kind regards,

Astrid Kerkweg (Executive Editor)
