Missing Figure 4 !

Sebastian Buschow and Petra Friederichs

Author comment on "Verification of boundary layer wind patterns in COSMO-REA2 using clear-air radar echoes" by Sebastian Buschow and Petra Friederichs, Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-128-AC1>, 2021

Many thanks to reviewer #1 for alerting us to the missing figure 4. I apologize for overlooking this latex-hiccup, which occurred at the very end of the first minor revision. We will respond to the other comments, together with the other reviews, in due time. In the meantime, please find the missing figure attached to this comment.

Please also note the supplement to this comment:
