Dear Juan A. Añel,

Many thanks for your comment and advice, and apologies for this issue. It was picked up by the topical editor, and an amended manuscript uploaded with a suitable zendo link in place of the github link. Somehow though, the original manuscript seems to be the one visible as a preprint, and not this updated version.

The code is available on zenodo, https://zenodo.org/record/4672260, DOI 10.5281/zenodo.4672260, and I have updated the licence info as suggested. I will make sure this is the link given in any future versions of the manuscript.

Apologies again for this,

Rachel
