Author comment on "DRYP 1.0: a parsimonious hydrological model of DRYland Partitioning of the water balance" by E. Andrés Quichimbo et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-137-AC1>, 2021

Dear Prof. Ferre,

We greatly thank your support and time taken for reviewing this manuscript.

We have addressed your comments in the attached file.

Best regards

E. Andrés Quichimbo
