Author comment on "DRYP 1.0: a parsimonious hydrological model of DRYland Partitioning of the water balance" by E. Andrés Quichimbo et al., Geosci. Model Dev. Discuss., https://doi.org/10.5194/gmd-2021-137-AC2, 2021

Dear Juan,

Thanks for letting us know, we have added our model code to Zenodo and its DOI is showed below:

DRYP 1.0: A parsimonious hydrological model of DRYland Partitioning of the water balance:.

https://doi.org/10.5281/zenodo.5061987

It follows all your suggestions and it is now publicly available from the Zenodo repositories under the GPLv3 licence.

Best regards
