Comment on gmd-2021-161

Juan Antonio Añel

Chief editor comment on "Assimilation of GPM-retrieved ocean surface meteorology data for two snowstorm events during ICE-POP 2018" by Xuanli Li et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-161-CEC1>, 2021

Dear authors,

After checking your manuscript, it has come to our attention that it does not comply with our Code and Data Policy.

https://www.geoscientific-model-development.net/policies/code_and_data_policy.html

The GPM-retrieved ocean surface meteorology data is stored in "<https://www.nsstc.uah.edu/public/xuanli.li/GMD/>". However, this is not a suitable repository. Therefore, please, publish your data in one of the appropriate repositories (e.g., Zenodo).

In this way, before the Discussions stage is closed, you must reply to this comment with the link to the repository for the code and the corresponding DOI.

Also, remember including in a potential reviewed version of your manuscript the modified 'Code and Data Availability' section with the DOI of the new repository.

Regards,

Juan A. Añel

Geosc. Mod. Dev. Executive Editor
