Author comment on "A Generative Adversarial Model for Radar Echo Extrapolation Based on Convolutional Recurrent Units" by Kun Zheng et al., Geosci. Model Dev. Discuss., <https://doi.org/10.5194/gmd-2021-165-AC1>, 2021

---

Dear Astrid Kerkweg ,

We will modify the title of the paper and add the model name and version number later.

The title of the paper will be changed to GAN-argcPredNet v1.0: A Generative Adversarial Model for Radar Echo Extrapolation Based on Convolutional Recurrent Units.

The modification of the description of the code availability section has been completed at the time of the last submission.

Yours, Yan Liu
